## PROFESSIONAL SUMMARY

U.S. Army Fire Control Specialist (13J) and Sergeant with strong leadership experience managing 10-15 soldiers in tactical operations and fire control systems. Advanced educational background with MBA and BSBA degrees providing expertise in strategic planning, financial analysis, and operations management. Currently pursuing Master's in Cybersecurity with demonstrated proficiency in network security, threat assessment, and incident response. Multilingual professional combining military discipline with technical acumen and business strategy knowledge across defense, technology, and security domains.

## MILITARY EXPERIENCE

### U.S. ARMY — FIRE CONTROL SPECIALIST (13J), SERGEANT (E5)

Jan 2023 – Present

Fort Bliss, Texas | Terminal Leave: November 2026

**Leadership & Personnel Management:**
- Lead and supervise 10-15 soldiers in fire direction control operations during live-fire exercises and combat training scenarios
- Mentor junior enlisted personnel in advanced fire control systems, tactical communications, and mission planning procedures
- Conduct performance evaluations, recommend promotions, and maintain team readiness standards across garrison and field environments

**Tactical Systems & Operations:**
- Master operator of Advanced Field Artillery Tactical Data System (AFATDS) for processing time-sensitive fire missions with <60-second response times
- Execute precision targeting calculations including grid-to-polar conversions, elevation adjustments, and trajectory analysis
- Maintain and operate secure digital communications networks using SINCGARS radios and encrypted data systems

**Vehicle Operations & Logistics:**
- Licensed operator of tactical vehicles including M2A3 Bradley Fighting Vehicles, M109A7 Paladin Self-Propelled Howitzers, and JLTV/LMTV platforms
- Conduct pre-combat inspections, maintenance schedules, and convoy security operations across varied terrain
- Manage ammunition accountability, fire control equipment maintenance, and field-expedient repairs

**Security & Communications:**
- Load, maintain, and clear cryptographic keys in SKL, ANCD, and other COMSEC equipment ensuring operational security integrity
- Process classified materials and maintain security clearance requirements in accordance with Army regulations

## CIVILIAN EXPERIENCE

### ELDORADO RESORTS, INC. — FOOD RUNNER & CASHIER

Jan 2021 – Nov 2022

Reno, Nevada | Part-Time
- Delivered high-volume food service to 100+ hotel rooms daily while maintaining accuracy and customer satisfaction standards
- Operated point-of-sale systems, processed cash and credit transactions, and balanced daily register receipts
- Demonstrated time management and multitasking abilities in fast-paced hospitality environment

## EDUCATION

### Master of Computer Applications (MCA) — Cyber/Electronic Operations and Warfare
University of Maryland Global Campus (UMGC)
January 2025 – June 2026 (In Progress) | GPA: 4.0

### Master of Business Administration (MBA) — Business Administration & Management
Liberty University
January 2024 – December 2024 | GPA: 3.69 | Specialization: Strategic Leadership, Operations Management

### Bachelor of Science in Business Administration (BSBA)
Southern New Hampshire University (SNHU)
Completed December 2023 | GPA: 3.50 | Focus: Economics, Managerial Accounting, Marketing Analytics

## PROFESSIONAL CERTIFICATIONS

- Google Project Management Professional Certificate (July 2024)
- Google Cybersecurity Professional Certificate (August 2025)

## CORE COMPETENCIES & SKILLS

### CYBERSECURITY & TECHNICAL
- Network Vulnerability Assessment & Penetration Testing
- Python Programming & Automation Scripting
- Linux System Administration (Kali, Ubuntu, RHEL)
- Windows Server Management & Active Directory
- SIEM Development & Log Analysis
- Wireshark Packet Analysis & Network Forensics
- Incident Response & Digital Forensics
- Git Version Control & GitHub Project Management

### BUSINESS & FINANCIAL
- Financial Statement Analysis & Budget Forecasting
- Earned Value Management (EVM) & Project Cost Control
- Business Intelligence & Data Analytics
- Market Research & Competitive Analysis
- Strategic Planning & Operations Optimization
- Risk Assessment & Mitigation
- Supply Chain Management
- Advanced Excel & Financial Modeling

### MILITARY & LEADERSHIP
- Personnel Management & Team Leadership
- Crisis Decision Making Under Pressure
- Tactical Communications & Secure Networks
- Equipment Maintenance & Logistics
- Security Clearance & COMSEC Operations
- Training Development & Performance Evaluation

## LANGUAGES

English (Native Proficiency)

Bangla/Bengali (Native Proficiency)

Hindi (Professional Working Proficiency)

Urdu (Conversational Proficiency)

## GITHUB PROJECTS & TECHNICAL PORTFOLIO

### NETHAWK-SCANNER (Python)
Enterprise-grade network vulnerability scanner with real-time threat detection and automated reporting. Features multi-threaded scanning and professional PDF report generation.

### THREATTRACE (JavaScript)
Lightweight security monitoring system for real-time log file analysis with customizable threat signatures and instant alert notifications.

### IRIS (Python)
Rapid incident response toolkit for digital forensics and evidence collection with network isolation capabilities and comprehensive reporting.

### CRED-AUDIT (HTML/JavaScript)
Web application for password strength analysis and compliance checking with real-time strength assessment and corporate policy validation.

### TIMESLEUTH (Python)
Digital forensics library specialized in timestamp analysis and evidence correlation with detailed timeline reconstruction capabilities.

## LICENSES & CERTIFICATIONS

- Driver's License (Class C) — Current/Valid
- U.S. Army Tactical Vehicle License (LMTV, JLTV, Bradley, Paladin) — Does Not Expire
- Security Clearance Eligible (Military Background)

## ADDITIONAL INFORMATION

- **Location Preference:** Open to relocation nationwide — Texas preferred
- **Availability:** Available for remote positions immediately | Full-time availability upon military separation (November 2026)
- **Security Clearance:** Eligible for government positions requiring security clearance
